

Tourist Superior Class - Galapagos Yachts

YOLITA II - YACHT

ITINERARY DAY BY DAY

Itinerary B 8 days / 7 nights

DAY 1 - SUNDAY

Arrival at Baltra Airport & North Seymour Island

After the arriving obligations, your guide will take you to the Yacht.

In the afternoon you are going to visit North Seymour, where there are good nesting spots for the magnificent frigate bird. Furthermore there are blue-footed boobies or swallow-tailed gulls perching on the cliff edges.

DAY 2 - MONDAY

Cerro Brujo & Leon Dormido, San Cristobal Island and Isla Lobos

Cerro Brujo (Wizard Hill) is a beautiful beach made of white coral and volcanic ash. It is located along the north coast of San Cristobal, the island where Charles Darwin first arrived in September 1835. In this fascinating landscape you can observe sea lions, as well as different sea birds, finches and warblers. The sheltered bay is popular for young sea turtles and rays. After visiting Cerro Brujo you will continue by yacht to Leon Dormido (Kicker Rock). The snorkeling is great here, with good opportunities for seeing sea turtles, spotted eagle rays, tropical fish and the Galapagos shark.

This little Isla Lobo is not far off Port Baquerizo Moreno, the capital of the Galapagos Islands and the main town of San Cristobal. The trail will lead across a dry vegetation zone, substrate of volcanic rocks and sandy areas. There is a small population of blue-footed boobies and frigate birds, which nest in this site. At the beach you will see a large colony of sea lions.

DAY 3 - TUESDAY

Española Island, Gardner Bay & Española Island, Punta Suarez

Located on the north-eastern coast of Hood, Gardner Bay provides an excellent beach for relaxing, swimming and snorkeling, and the opportunity to observe sea lions. Here you may also observe sharks in the crystal clear ocean waters.

This rocky land spot Punta Suarez sustains one of the most impressive and varied colonies of sea birds in the Galapagos. Along its southern shore, high cliffs rise up from the sea affording the visitor spectacular views of soaring birds and of the blow whole where water spouts up to 50-75 feet into the air according to the intensity of the surf.

DAY 4 - WEDNESDAY

Santa Fe & South Plazas

Santa Fe is the home of a number of endemic species like the Galapagos Hawk, Galapagos snake, Galapagos mockingbird, rice rats and one of the two species of land Iguanas of the islands. After disembarkation in the beautiful and clear waters you will be in contact with one of the many sea lion colonies. There are great possibilities of snorkeling with playful sea lions and tropical fishes.

South Plazas is located at the east of Santa Cruz Island, and forms part of two islands known as Islas Plazas. Despite its small size, some of the most interesting and outstanding species of the Galapagos are found here. Throughout the island there are several hybrid iguanas, a result of crossing a male marine iguana and a female land iguana, they are unique, recognizable at first glance by their black/gray color, with a land iguana's crest, but face and tail of the marine iguana.

DAY 5 - THURSDAY

Charles Darwin Station & Highlands, Santa Cruz Island

Although the great majority of Galapagos visitors come here to observe and appreciate natural wonders, it is also interesting to learn how the protection and conservation of the islands are carried out. The Breeding and Rearing area of the scientific center are definitely a worthwhile visit.

The road to the highlands leaves from Bellavista, a small village located at a 15 minute drive from Puerto Ayora and passes through the agricultural zone, near the National Park boundary, the Miconia Zone, and then goes to the Fern and Sedge zone. You will visit as well a local ranch where we can observe the Giant

Tortoise specie of Santa Cruz Island in its natural habitat. After our Highlands visit, we will return to Puerto Ayora and the yacht.

DAY 6 - FRIDAY

Punta Cormorant & Post Office Bay with Baroness Lookout, Floreana Island

This site offers probably the best Flamingo lagoon in the Galapagos; it is also one of the largest in the islands. It's situated between two tuff lava cones that give the area a special atmosphere. There are various species of shorebirds to observe besides flamingos; the most frequent are common stilts, white-checked pintail ducks and other migratory birds. After our visit to Cormorant Point we will continue with our yacht to the nearby Devil's Crown, where we can enjoy some great snorkeling.

Historically, Post Office Bay is the location of a wooden barrel that was placed in the 18th century by the crew of a whaling ship. Apart from being the Post Office Barrel, this site was the landing area for some of the first colonists. We will continue to the north of the island and ascend to an elevated slope to enjoy a beautiful view from the Baroness Lookout.

DAY 7 - SATURDAY

Chinese hat & dragon hill, Santa Cruz Island

This small islet is a recent volcanic cone, shaped like a Chinese hat when seen from north side. On the west side lava formations may be observed, formed under the sea and raised upward, this is why coral heads are found on the lava.

The visitor site at Dragon Hill has been open for visits since 1993. There is a trail that leads to a hyper-saline lagoon behind the beach, frequented by flamingos, pintail ducks and other species of birds. This site has been re populated with land iguanas from Seymour, Isabela and Santa Cruz islands.

DAY 8 - SUNDAY

Black Turtle Cove & Transfer to Baltra Airport

This little cove is located at the northern side of Santa Cruz Island, this is a red mangrove lagoon very calm and quiet which makes it an ideal place as nursery for many sharks and rays. Its crystal waters permits to observe large groups of white-tip reef, black tipped reef and hammer heads sharks, schools of golden rays and spotted eagle rays. Sea turtles are frequently seen and sometimes they are seen mating in the mangrove-lined waters. Afterwards you are transfered to Baltra airport for your flight back to Guayaquil or Quito.

Rate includes:

- All meals (breakfast - lunch - dinner) water with meals.
- Accommodation in double cabins.
- Transfers from the airport to the yacht and vice versa in Galapagos.
- Excursions in the islands with English Speaking Naturalist Guide.

• Air ticket**Rate does not include:**

- Galapagos National Park Entrance Fee: USD 100.00 per person.
- Migratory Control Card: USD 20.00 per person.
- Ecogal Tax: USD 10.00 per person.
- Soft drinks and alcoholics beverages.
- Snorkelling equipment for rent on board.
- Tips.
