

First Class - Galapagos Yachts

Galaxy - YACHT

ITINERARY DAY BY DAY

Itinerary A 5 days / 4 nights

DAY 1 - TUESDAY

In the morning: Airport

San Cristobal airport. Reception at airport. Transfer IN. Welcome on board Galaxy Cruise.

Welcome drink and lunch.

In the afternoon: Lobos Island

Panga Riding, swimming and snorkeling. Here, we can walk, swim and snorkel among the seals, frigates, marine iguanas, lava lizards, and the small endemic Galapagos snake. Here, we can swim and snorkeling in the same place it. Dinner.

DAY 2 - WEDNESDAY

In the morning: Gardner Bay

Breakfast early in the morning. Wet landing, activities for this visit: short walk, swimming, snorkeling, and observation of seal colony. The sea lion is one of the animals in Galapagos which gets the total attention of the visitors in the Galapagos: they are curious and playful, but at times aggressive; they are nice and loving, but also lazy.

In Gardner Bay, we are going to find many of them relaxing on the beach enjoying the sun. In addition to observing these fascinating animals, while snorkeling, we will be able to swim with sea lions, sea turtles, a diversity of tropical fish, marine iguanas, etc. We will return to the ship and sail to Gardner and Osborn Islets. Lunch.

In the afternoon: Suarez Point

Dry landing. Activities: Walking, sight-seeing. We recommend sports shoes, hat or cap, and sunscreen. There is no color more amazing and outstanding in this tropical desert island, than that of the blue-foot boobies. These birds have an impressive form of "greeting" and it is a real thrill to see their mating dance. The blue-footed booby can be seen on several of the islands as nesting grounds and feed are located in several coastal locations. The albatross, an aristocratic bird weighing up to four kilograms, can be observed here. One of the largest birds of the islands, approximately 12,000 couples nest on Espanola Island and a smaller number nest on Silver Island, near mainland Ecuador. This species is considered endemic to this island; during our walk, we will observe these fantastic birds while taking in the beautiful landscapes offered by this island. It is important to note that albatrosses will not be seen between January and March (non-breeding) season. We will also see colonies of marine iguanas, zayapas, masked boobies, finches, Espanola cucuves, and seagulls unique to the islands. Our walk will be on lava rock where we will be able to see lava tubes. Red mangroves are found here. Delicious snacks and fresh beverages are waiting for you on the ship.

DAY 3 - THURSDAY

In the morning: Post Office

Breakfast early in the morning. Wet landing. Activities: short walk, swimming, snorkeling, explanation of the mail system. Description: Mail Bay is located on the north side of Floreana Island. Captain James Colnett installed an empty barrel to be used as a post office for the whaling fleets that stopped at the Galapagos Islands. You can leave postcards to your friends and relatives here and/or pick up mail to deliver. Back at the ship, Delicious snacks and beverages are waiting for you.

Return. Delicious snacks and beverages will be expecting for you and lunch.

In the afternoon: Cormorant Point and Devil's Crown

Wet landing, snorkeling and short trekking. This point is located at west of Floreana Island and it is famous for its dark green beach (due to the great quantity of olivine crystals). You can see many marine invertebrates, as well as sea lions, sea iguanas, the frigates and pelicans.

Second visit: DEVIL'S CROWN: Activities in this place: panga ride and optional swimming.

Enjoy a panga ride around a small island, a satellite islet of Floreana Island. Here, we will find a group of rocks that resemble a Crown due to the constant erosion caused by the sea. It is one of the better places to snorkel (shallow diving) in the interior and around the crown. Excellent visibility allows guests to admire a great variety of fish and sea animals. Dinner.

DAY 4- FRIDAY

In the morning: Santa Fe

Wet landing, activities for this day: hiking, swimming and snorkeling. With 24 km²

and 60 m of height above sea level, this central island is a unique place to visit. It has an incredible bay of turquoise water, protected by a natural barrier of rocks. You will see colonies of seals as hawks fly overhead. This island is home to one of the two species of land iguanas found in the Galapagos. Their main food source is the leaves and fruit of the large, thick cactus found here. Crabs, nocturnal herons, marine iguanas, cucuques and land doves are seen frequently. The Bay is excellent place to swim and to do snorkel. Marine tortoises, rays, sea lions and tropical fish are an amazing attraction! Snacks and refreshing beverages are waiting for you on board. Lunch. Navigation toward South Plazas Island.

In the afternoon: South Plazas

Are two small islands, created by an uplifting of the land. The land iguanas are smaller here; they nest during the warm season. The hike goes along an extraordinary cliff where sea birds nest. There are approximately 1000 sea lions (*Zalophus Wollebaeki*) located on the south side of the Plazas. Dinner.

DAY 5 - SATURDAY

In the morning: Charles Darwin Station / Airport

We take our breakfast very early in the morning. Our luggage and all your belongings should be list to check out in the ship, our last visit: Charles Darwin Station is located in the main port on Santa Cruz Island; we will take a private bus to the entrance of the breeding center where we will see tortoises and land iguanas in captivity. This center is the main breeding site on the islands. Animals that were in danger of extinction on the various islands are maintained in captivity. Thanks to the dedicated work of several institutions, some species are being saved. Here lived Lonesome George, the famous last survivor of the giant tortoise species found on Pinta Island. Transfer to the airport.

Rate includes:

- All meals (breakfast - lunch - dinner) water with meals.
- Accommodation in double cabins.
- Transfers from the airport to the yacht and vice versa in Galapagos.
- Excursions in the islands with English Speaking Naturalist Guide.
- **Air ticket.**
